Senator Steve Neville Endorses Mullins

Tom Mullins, Republican Candidate for the United States House of Representatives, 3rd Congressional District received the endorsement of San Juan County's second Republican State Senator today.

"The problems in Washington mirror the financial challenges we face in New Mexico. Tom has the small business experience and entrepreneurial mind-set necessary to restore our federal government to its Constitutionally prescribed duties. Tom is truly a grass roots limited government conservative with the clear understanding that a budget must be balanced. We need more engineers in Congress with problem solving skills like his. I believe Tom understands that this seat belongs to the New Mexico people and he will listen to their diverse concerns and act with compassion to reduce the size of the federal government." stated Neville.

Mullins is a registered professional petroleum engineer who recently stepped down from the presidency of the Independent Petroleum Association of New Mexico (IPANM) to challenge Ben Ray Lujan, Jr for the 3rd Congressional seat. The seat covers sixteen (16) counties in Northern and Eastern New Mexico, including the important clean burning natural gas producing areas of the San Juan Basin and the Raton Basin. Mullins, a Farmington resident, has over nineteen (19) years experience responsibly developing oil and gas in New Mexico and throughout the Rocky Mountain region. Mullins believes that the citizens of New Mexico want jobs, not government promises, and subsistence handouts. He wants to reduce the burdensome federal regulatory environment and allow the private sector to succeed. Stimulus spending has only grown the size and scope of government at all levels. Tom knows that if you are allowed to keep your money and spend it how you deem appropriate that the economy will promptly recover.

Mullins stated, "I want to thank Senator Neville for his steadfast support and leadership in attacking corruption. Residents of San Juan County are blessed to have responsible lawmakers like Steve in the trenches of Santa Fe fighting for common sense regulations, reasonable laws, and lower taxes. I am honored to have his support."
